may be due to mild inflammation of the hypothalamus in obese models. Wisconsin, USA, Federal Bureau of Labor and Social Security, Australia, Simonton Institute, Institute... 30.09.2018 11:09 News Dynamics and risk factors of postmenopause: a review of 2018. Depression is a major mental and physical problem in the lives of women around the world. In addition to emotional problems caused by bad mood, early menopause caused by changes in hormonal balance, as well as various medications that can have a negative effect on a woman's hormonal levels, can lead to a mental breakdown. The main purpose of this study is to evaluate the impact of an irregular sex life on the risk of depression and the associated risks. Early exchange... 29.09/07.2018 13:16 News The number of patients with migraine has doubled over the past 50 years. Some researchers believe that the causes of the current state of affairs are migraines and elevated testosterone levels. Genotype " Genetic differences affect the immune system, which can affect how the immune system defends the body against various viruses and bacteria. In the latest study, published in the Journal of Human Clinical Nutrition, researchers at the University of Copenhagen analyzed data from more than 4,000 patients with immune system disorders.... 28.09./07.2017 10:12 News A new way to treat coronary heart disease is the developed THS method. In Russia, a new method for the treatment of angina pectoris has been proposed - THS therapy, which has so far been successfully used in Israel, Great Britain, the USA and a number of other developed countries. This technique not only significantly improves the quality of life of patients, but also reduces disability in older patients. But at the same time... 24.09 /07.2016 18:22 News Scientists from Boston University have found an effective tool to combat type 2 diabetes. Researchers at the University of Bristol have found that using watermelon in the treatment of type 2 diabetes increases the body's ability to recover. The results of the study were published in the journal Diabetes and Metabolic Disorders. In addition, the impact of Chinese tea, which will appear on the Russian market in the near future, was studied. Compared to
