Upload files and directories and share with everyone. More than 1.8 million files are hosted on 4shared.com and it's growing everyday. It's time to share!The present invention relates generally to communication networks, and, more particularly, to the detection of a leak in a cable. Cable is the preferred medium for the transmission of large amounts of information, such as data and voice. It provides a large bandwidth that can be offered at a low cost compared to other communications mediums. As such, cables are being used in a wide variety of applications including telecommunication networks, computer networks, power distribution networks, and the like. In particular, cables can be used in a wide variety of power distribution applications. A common configuration for a power distribution network involves a power source (e.g., a generator or a transformer) supplying power to a power distribution panel, which in turn supplies power to multiple outlet boxes. The outlet boxes supply power to one or more branches that supply power to multiple devices

Macrobject CHM-2-Web Professional (LifeTime) Activation Code Free Download

Key macro is designed to automate the process of creating CHM document from HTML Help file. This program generates online help with topic trees automatically. Supports full HTML documentation. It can extract topic trees from CHM file and keep styles of the original CHM file. CHM-2-Web can create online CHM document from HTML Help file, only you need to supply the following information: 1. Title of your Web page. 2. Author and contact information of your company. 3. URL of your website. 5. E-mail address of your contact person. This program can be used to create online CHM document from existing CHM documents. We have already prepared a demo CHM-2-Web, you can try it at www.Macrobject.com. CHM-2-Web features: 1. Generate online CHM document from HTML Help file. 2. Keep format/styles of original CHM file. 3. Support full HTML documentation. 4. Create topic tree automatically. 5. The command line of CHM-2-Web can be used to generate Web files automatically. 6. Create online CHM document from existing CHM documents. Please note: 1. CHM-2-Web will not work when your HTML help file is not indexed by Google. 2. Some documents from CHM-2-Web is just a preview. You need to save it before create your website with CHM-2-Web. 3. In our test environment, CHM-2-Web cannot support large CHM file (more than 10MB). 4. Some content in CHM-2-Web is not officially supported. 5. Some minor errors in CHM-2-Web. We hope to have this fixed as soon as possible. Limitations: 1. The file size of the CHM-2-Web document cannot be more than 10 MB. 2.
