With Christmas approaching, our main artist Hachimori, along with his son, decided to go out and experience Christmas for the first time. In Japan, Christmas is celebrated at the end of November, the month known as 'Oshiki'. This year, 'Oshiki' is falling on October 20th, but since our artist is a snowman, he had to wait a while before being able to experience the winter in Japan. In addition to this, to share their experiences as artists, they have provided an easel and canvasses in the store and also included a DLC for Paint by Numbers! The Hachimori family makes art because of their love for 'Oshiki'. The winter is a wonderful season in Japan, where you can enjoy the snow and enjoy the cold temperatures in one convenient package. Lets celebrate 'Oshiki' together through beautiful art and life together! - Illustrators: Hachimori □Dejiko□ - Artists: Hachimori □Dhaka□ - Creator: Peppermint CZ - Audio: Jamando - Design: Mougua - Music: Tetsuya Yamazaki - Developers: CHU-TO-MIDI - Background: Kagura-an - Language: Japanese ■>Status: Available Immediately and will be available in the US/EU Store next week. ■>Update Ver. 1.0.2 Released! Update Ver. 1.0.2 Released! Support for screen resolution up to 1920 x 1200 Minimum System Requirements OS c9d1549cdd

Zenohell (Latest)

Idle Wasteland is a post-apocalyptic fantasy shooter about a group of mighty warriors trying to survive the harsh Wasteland. In this game, players level up by gaining experience and using skills to perform special attacks against the enemy. In each level, players have to find 4 types of weapons, which are rare and hard to get. They also have to find items called "nuclear materials" to create more powerful weapons, and they can get more nuclear materials and items by earning money in the level. You can use 1, 2 or 3 level up skills at a time, and you must choose one of them to be activated when you level up. There are no extra skill points, as players can only have one level up skill at a time. Each level up skill has 2 uses. However, players can combine multiple level up skills together to use them multiple times. For example, you can combine level up skills that adds 2 weapon points, and 1 that adds 2 weapon durability, and 1 that adds 2 weapon damage, to make level up skills that can add 3 weapon points and 3 weapon durability, and 3 weapon damage. There are a total of 57 level up skills, the most in the game. You can buy/get some skills for money and get some others for rare resources. In the level up skill tree, players can choose either Combat, Weapon, Support or Utility skills to buy and gain more abilities. Combat skills are mostly attack moves and can use weapons to attack enemies. Weapon skills are items and have certain damage statistics. The Support skills are for healing, and Utility skills are there for various other uses such as gathering items, searching, and killing enemies. There are also many special skills that use Nuclear Materials to create powerful weapons such as a spike gun that can make a weak piercing projectile into a very strong piercing one, a grenade that can tear armor and destroy health points, an armor shredder that can destroy armor and heal enemies at the same time, or a mine that can explode near nearby enemies to blow them away. "WARNING: Players above level 4 can use the survival mode which offers unlimited nuclear materials." How to play: Players can play 3 ways: Survival Mode, PvP Multiplayer and Single Player (Single-Player means that the game is very easy and easy to defeat enemies, but has no PvP multiplayer). In Survival Mode, players must collect Nuclear Materials to create a power, and survive against waves of enemies. This mode is designed for the lowest level players. In PvP multiplayer

What's new in Zenohell:

Limited has announced the sixth DLC "Killing in the Distractions" for its first person first-person shooter "Unreal Tournament 2003". It will be released on May 15th, 2006. On the page you'll find some special footage. Please note, because of the large amount of it I cannot provide you with the trailer before the dev-trailer. Watch it after the break. 1. Unreal Tournament - Killing In The Distractions Pack 2. Fighting Klenn, the Cursed Mercenary 3. Speeding For Chrome 4. Shadowed Treks 5. Huey

Settster P.S. The shorts trailer I've included from the developers of Unreal Tournament 2K4 is the intro trailer! In the description of the video you'll find a version of the game's intro movie. Unreal Tournament - Killing in the Distractions Description : Luxor, your godfather. He's not impressed with you. You're not the man he hoped you would be. He knows... He's worried you won't be careful. You're about to learn about what the real cost of fighting can be. Key Features Official Unreal Tournament 2003 ruleset with 64 player custom official rulemaker building bots Teamplay Eight player split screen (four per team) A4 map editor Three player split screen (two per team) custom official rulemaker building bots Six player split screen Teamplay Dual teamplay online multiplayer mode Game logging with email Plot - Lead us to your old friend Emile Changelog 1. Patch 1.1.1a Fixed Nuke glitch on Blue Rodeo by targeting an enemy on top of the nuke, he will actually explode and clear the nuke just as you got used to. 2. Patch 1.1.1b Fixed a bug where players could control clients in a firefight by sitting down on a chair. 3. Patch 1.1.1 Fixed an online glitch. 4. Patch 1.1.1 Fixed an online data corruption issue. 5. Fixed bot code improvements. 6. Fixed a bug that could allow players to control they clients using the controller. Download Unreal Tournament (3.0.3) Download Unreal

From the one of the most popular game maestro, the author of the world-famous game, "trundle", and a friend of "bowmaster", Mr. Kobayashi comes to share the password of his bowmaster project "bowmaster-qt"! Play in VR with the best game controller ever made! Each of the 5 buttons on the controller correspond to one of the 5 arrows available! Aim your bow with precision and power. When you pull the trigger, the bowstring will release and whirl around, propelling the arrow! The arrow will not slow down until it hits the target! What is "Bowmaster"! The classic strategy gaming experience in virtual reality. Headshot vs. Headshot In the traditional sense of tower defense, the player is always at a disadvantage. If the enemy is given a headshot in defense of the castle, there is no stopping it! In Bowmaster, the opposite is true - the

arrow, handcrafted in a scroll engraver's workshop, will not slow down until it hits the target. **Score Attack** The game is all about killing the opponents in the most efficient way, and the best score is always what is on display. **Single Player vs. Cooperative Multiplayer** The single player mode will challenge you to protect your castle and eliminate all the attackers. You can enjoy this game by yourself, or with up to 4 players cooperatively. To beat the game, the only thing you need is teamwork and communication. Don't wait! Invite your friends, family and everyone you know right away. Grab the controller and get started. **Features:** > Unique gameplay for VR: Shoot the arrows from the reach of VR. > Attractive and rich graphics. > UI design for easy operation. > Single Player vs. Cooperative Multiplayer modes. > Single person mode or cooperative mode. > Multiplayer up to 4 players. > Crossplay for both Windows and Mac OS. **Vitrification of human endometrium tissue using combined ultra-rapid cooling system and rapid cooling method: A clinical trial.** Somatic cell cryopreservation is one of the main methods used in assisted reproduction technologies. In this study, we investigated the results of vitrification of human endometrium tissue using combined ultra-rapid cooling system and rapid cooling method. Endometrium tissue samples were obtained from patients with abnormal uterine bleeding, endometrial carcinoma, polycystic ovarian syndrome, or women with previous difficulty in
